

## Pursuit Denali 286

**AU \$89,990**

The Pursuit 2860 is a leading runabout for boaters who appreciate quality. The Denali's are a versatile boat for both fishing or a relaxing weekend cruising. Powered by a MerCruiser 496 Mag and propelled by a Bravo 3, this vessel has 900 hours on the dash and will get up to speeds of 28 knots.

The boat's huge helm deck, with its elegant L-shaped lounge seating, wet bar, and well-designed helm, is the focal point of the boat, built on a deep-V hull with moderate beam and an integrated swim platform.

Along the transom contains a fresh water sink, insulated fish box/cooler, and raw-water wash down. The Denali's well-equipped cuddy cabin has a bed or two with a removable table, a kitchen with sink, refrigerator, and stove, and an enclosed bathroom with shower and toilet.
